Introduction

The Careers Department has a specialist team of staff and many resources to help you to make decisions about your future. Resources are used in the weekly tutorial programme and special events are planned throughout the year to ensure you make informed choices about your future. You may also book careers appointments regarding advice and guidance, on a one-to-one basis, at any time.

Higher Education (HE)

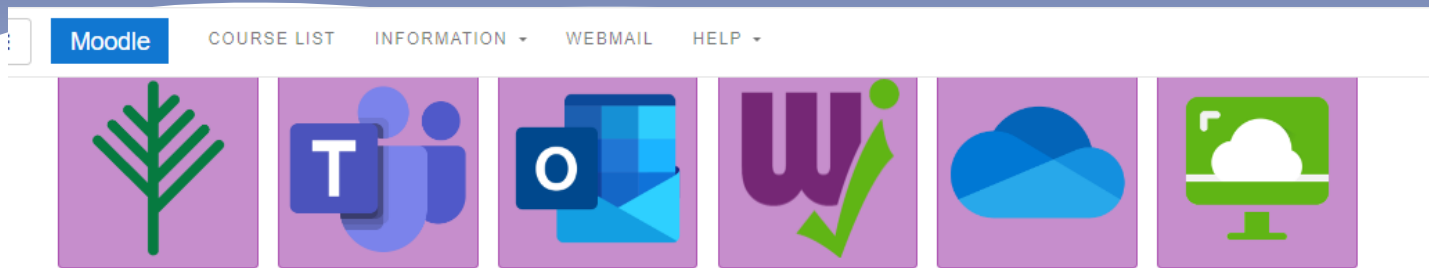

Students wishing to go to university (in the UK or abroad), or other Higher Education institution, are supported in this by a range of activities. Personal Tutors write references for students' UCAS applications. A large amount of support is available throughout the application process (for example, every application form is reviewed by four members of staff before it is sent).

Employment, Apprenticeships and Training Schemes

Increasing numbers of students are choosing to undertake opportunities offered by Apprenticeships, including Higher Apprenticeships and Degree Apprenticeships. We have links with local businesses as a result of their attendance at our annual Careers events (see below). e.g: BT, Larking Gowen and Constable VAT.

Self-employment

MOODLE- College intranet for students

Notices

January Mock Arrangements

During the first few days of January the College will operate on an altered timetable in order to accommodate the January mocks for year 2s. [Click here](#) for more details.

Careers Appointments

If you'd like to book an appointment with the Careers department you can try their new booking system [here](#). Alternatively you can still email them (CareersOffice@colchsf.ac.uk) or visit them in person in room 113, behind the library.

Use Of College Facilities

You can find a place to work by checking the list of independent [study facilities](#) around the College. Also, find out which College Facilities you can use before and after lessons [here](#).

IT Support Page

Check out the [IT Support page](#) for tips on accessing email, your College files, connecting to Wi-Fi in College buildings and printing.

Morrisby

- * As a college we have subscribed to a platform called Morrisby. Every student has been enrolled.
- * The platform allows students to record Activities/skills - These can then be used when completing CV's or Personal Statement for University applications.
- * The platform also, after the completion of a questionnaire, shows students career ideas that suit their answers and then provides information about University and Apprenticeship opportunities

Emails from @Careersoffice

- * Throughout the year we are sending information to students about Progression – these emails will have attachment and/or links in to help direct students
- * Please encourage students to find these and read them!
😊

Examples

Progression - Make yourself stand out from the crowd

Dear Year 1 student

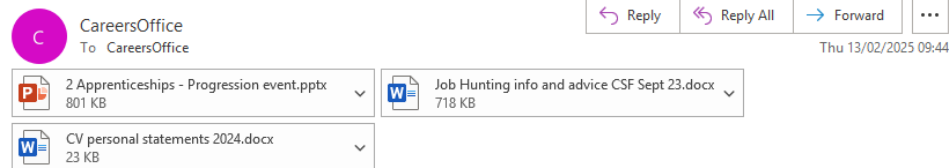

Getting prepared for your next steps. The University and Employment Fair was very well attended, and you might now be thinking more about university or Apprenticeship opportunities – **we would like you to check out your [Morrisby](#)** you generated a log in at the start of the year. **As it can help you discover jobs and careers that would suit you and the routes into these careers** – telling you if you need A levels or a Degree, what course you need to take or what apprenticeship opportunities there are - **you can find this on the MY CHOICES tab.**

We would also like you to continue to think about activities that you do outside your lessons. **These can be used to either show interest in the subject you will apply to study at university and so be used in your Personal Statement and in your college UCAS reference. Or they can be used in the Personal Profile section of a CV used to show how you have developed skills for the job/Apprentice you are applying for.**

Super curricular – extra activities that you do to show your interest in a subject or job role You need this for both University applications and Apprenticeship/employment applications. Some Ideas:
Work experience – a lot is now virtual we also advertise opportunities in the careers bulletin- or look on a company's website or conta

Year 2 Progression - Apprenticeships and Employment

Dear Year 2 student

If you are planning on starting an Apprenticeship when you leave college – you need to start doing research now. Your research is harder than if you wanted to go to university - as there is not just one place to find vacancies and the Vacancies will be advertised at different times of the year and for a limited time – so you have to keep looking.

The powerpoint above has links on and lots of information for you. See below for other links to find vacancies.

We would like you to **create a LinkedIn profile**. This [handout](#) will take you step by step through how to do this. **Please link to The Sixth Form College, Colchester. [The Sixth Form College Colchester | LinkedIn](#)** This link will take you to the College page directly, from there you can click that you were an “alumni” (meaning that you are a student at the College) as well as “following” the page. Remember to do both! Why? – **the majority of jobs are found by LinkedIn** and employers can find suitable candidates. If you are looking for Employment or an Apprenticeship a future employer will look at your profile – or might even message you if they think you are suitable for their job role.

Planning

CV writing – see above document – update your CV to be ready
Write a list of your strengths and weaknesses

What is an Apprenticeship? What is available? – we record any apprenticeships that we know about on the weekly [Careers Bulletin](#) also look at our [moodle page](#)
[Amazing Apprenticeships](#)
[Higher & Degree Listing - Amazing Apprenticeships](#)

Progression - Make yourself stand out from the crowd

Dear Year 1 Student

We would like you to think about activities that you do outside your lessons. These can be used to either show interest in the subject you will apply to study at university and so be used in your Personal Statement and in your college UCAS reference. Or they can be used in the Personal Profile section of a CV used to show how you have developed skills for the job/Apprentice you are applying for.

Super curricular – extra activities that you do to show your interest in a subject or job role You need this for both University applications and Apprenticeship/employment applications. Some Ideas:

- Work experience – a lot is now virtual we also advertise opportunities in the careers bulletin- or look on a company's website or contact them to ask – some hobbies might also give you experiences of this e.g. writing your own blog [virtual work experience](#)
- [Additional Studies](#) at college – Sports coaching, MEDICs, Lawyers etc
- Wider reading – every subject has suggested [reading](#) -or look on university websites
- Listening to relevant [podcasts](#)
- University taster days – or tasters of subjects to know you will like it – there are some also for apprenticeships – (company websites have videos) [online subject tasters](#)
- Trips and visits - either through college or on your own (law students can visit law courts)

You can also do **Extracurricular activities** – activities that do not relate directly to your subjects – work experiences like part time work, [Additional Studies](#) at college, being part of a group (musical, sporting, volunteering, scouts etc), other hobbies and interests (all of these help you develop skills)

We would like you to record these on your [Morrisby account](#) as activities, so your Personal Tutor can see them.

Examples cont.

Progression University - where to start - IT IS NOT TOO LATE and NOT EVERYONE KNOWS WH...

Bursary Brochure.pdf
9 MB

UCAS – what can the website do for.pptx
6 MB

Dear student

Not sure if university is for you or just have no idea where to start with UCAS? Look at the attachment – **Why continue in Education**

- **What can I study?** There are over 30,000 university courses -[Search](#) | [Subject guides](#) | [UCAS](#) some subject taster sessions [Subject tasters](#) | [Virtual and digital](#), [Undergraduate](#) | [UCAS](#) or general help [What University Course Should You Study? \(ucas.com\)](#) or search in the UCAS search for a subject or topic or

career – pick courses and search in the subject

- **What can I do with a degree in.....**[What can I do with my degree? | Prospects.ac.uk](#)
- **What is the best university?** – it really depends on you and the course you want to study and the modules you want to do – every degree is different. If you are planning on taking a more practical course – ensure the University have up to date facilities and enough space for independent work

There is good university guides e.g. guardian [University guide](#) | [The Guardian](#), Russell Group universities [Russell Group](#) | [Our universities](#) and Sutton 30 Universities [University partners - Sutton Trust](#) you need one that meets your needs and has good facilities (go to an open day)

- **Attend open days** [University Open Days](#) | [Visit Universities and Colleges](#) | [UCAS](#) – to see if you like it and their course – as every course will be different

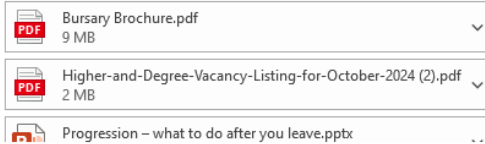

Progression - Year 1 What are you going to do after you leave college?

CareersOffice

Reply Reply All Forward ...

Wed 08/01/2025 14:25

Dear Year 1 student

Welcome back after Christmas!

It might seem early to get you thinking about what your plans will be when you leave college, but like every big decision starting early and doing research will help you make the right choices for you. The attached PowerPoint: **Progression – what to do after you leave** goes through, with weblinks to relevant sites, the 2 options you have:

1. To continue in full time education – go to university or conservatoire or further education
2. To gain employment or an Apprenticeship

It also includes information to get you started if you have no idea 😊

As usual we will be sending regular emails to keep you making progress.

Evette Hawkins

Dear Student

We would like you to create a LinkedIn profile. This [handout](#) will take you step by step through how to do this. Please link to The Sixth Form College, Colchester.

Why? – the majority of jobs are [found](#) by LinkedIn and employers can find suitable candidates. If you are looking for Employment or an Apprenticeship a future employer will look at your profile – or might even message you if they think you are suitable for their job role.

Evette Hawkins
Head of Careers and Progression

Tutorials

- * Students have had information about Employability skills and each subject encourages students to record the skills they are developing as the year progresses. These can be recorded on Morrisby
- * Students are encouraged to do research about opportunities and are shown where to find information relevant to employment or university courses and are helped to complete their CV and UCAS application
- * UCAS The earliest you can apply is mid September – latest (not to be a ‘Late Applicant’) Mid November at College (to allow checking and sending before 14th January 2026 deadline)

Progression routes PowerPoint

Progression – what to do
after you leave college

2025

Additional Studies

- * Wide range offered to students – who all have to do an additional as a 4th Subject.
- * One reason is the new University Personal Statements – 3 questions:
 - Question 1: Why do you want to study this course or subject?
 - Question 2: How have your qualifications and studies helped you to prepare for this course or subject?
 - Question 3: What else have you done to prepare outside of education, and why are these experiences useful?

OXBRIDGE Group

- * 'Oxbridge – the Universities of Oxford and Cambridge
- * Oxford and Cambridge are two of the best academic universities in the **world**, as they offer unrivalled teaching and learning opportunities
- * Applicants need to have an **excellent academic record** (GCSE and A Level results), be passionate about their subject, and be self-starters in terms of learning
- * College offers support and guidance for students who are thinking of applying – **28th Feb Oxbridge briefing for First Years**, 20th March – Former Student briefing for First Years, June-July – 1 to 1 interviews with First Years and Personal Statement advice
- * Details of upcoming briefings are advertised through the student bulletin
- * For further information, go to the Careers Moodle site, then find 'Oxbridge'; or email Tom Imber (Arts subjects) or Miriam Raynor (Science and Maths and STEM subjects)'

Medicine, Dentistry, Vet Med

- * It is an additional study that is timetabled for Friday lunchtime. If planning to study one of these courses students should already be enrolled and need to see Kate Thacker or Sarah Traverse in Biology to join.
- * The **competitive** nature of these courses and **high Academic entry criteria**. If students are not looking at 3 A predictions at A-level then they are not going to get onto a course unless they fulfil Widening Participation Criteria and even then they really need to be Bs. For most students their GCSEs will also be crucial a) because there is a minimum entry criteria and b) for there is a strong correlation in GCSE score and success in the Admissions tests that both Doctors and Dentists have to sit.
- * For **Vets work experience is compulsory** and they have to have completed a minimum number of weeks. For the others work experience is advisable and a significant number have organised this at Colchester hospital. Long term voluntary work e.g. care homes is also advisable.

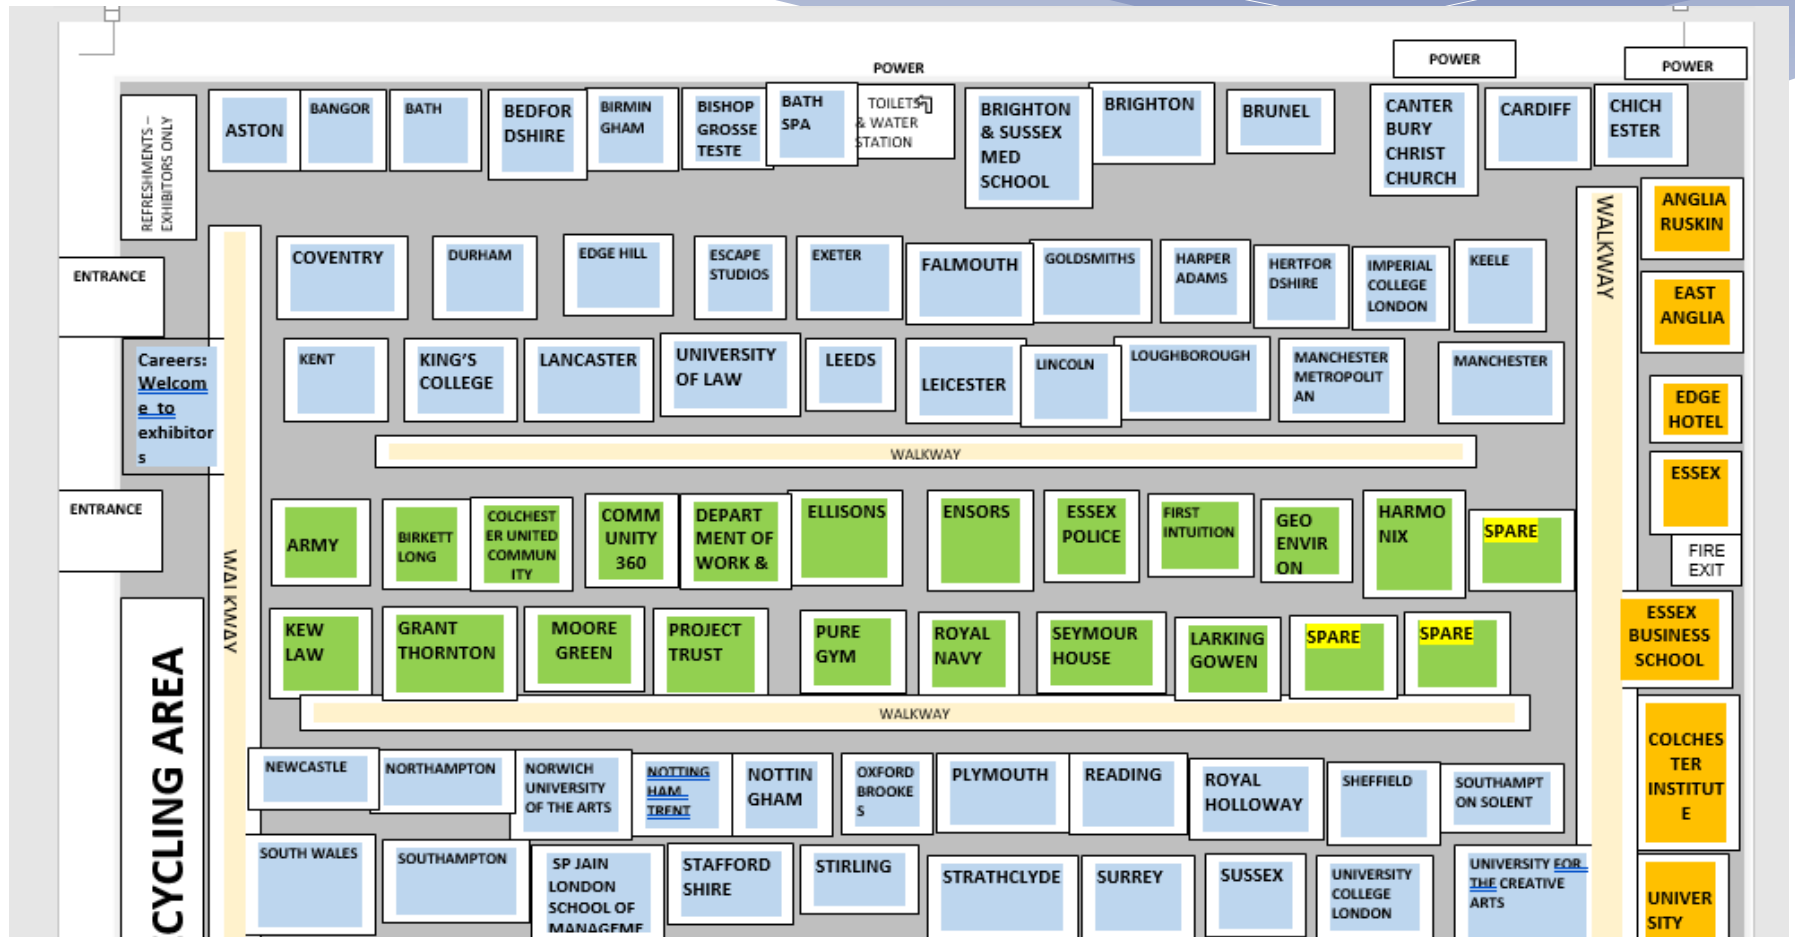

How College supports students through the Higher Education process

- * Employability Skills Tutorial – for Personal Statement
- * Manage your Career - Tutorial
- * Careers Fair (February)
- * Progression Event (3/4th July) – over 300 talks available about courses, personal statements, Student finance, also Apprenticeships and Jobs are covered.
- * Tutorials with Personal Tutor on the UCAS Application process/personal statements/CV
- * Higher Education Finance Talk (late summer term Yr2)
- * Careers interviews
- * Information on MOODLE, in Bulletins and emails

How College supports students through Job searching and applications

- * Employability Tutorial
- * Managing your Career Tutorial
- * Careers Fair (February each year)
- * Progression Event (3/4 July) – over 300 talks available about Apprenticeships and Jobs, Applications and chance to speak to employers.
- * Tutorials with Personal Tutor on Employability skills and Employability Skills
- * Moodle site/ Careers Bulletin/Student Bulletin with vacancies
- * Careers interviews

Employment and University Fair 2025
