

# Career Progression Event

This year's Career Progression event for Year 1 students was VIRTUAL and took place on 22 and 23 June. The virtual events and links are still available throughout the summer.

Students can access the information and links via 'Moodle/Careers/June 2021 Career Progression Event'.

Students were able to explore opportunities regarding Employment and Higher Education. They have already received documents on Not Sure what to do after college, Employment/Apprenticeships and University

There was one live session on Wednesday 23 June. During this session, Mike Nicholson - Head of Recruitment & Admissions at the University of Bath (formerly in similar roles at Oxford University and the University of Essex) compared four personal statements and asked students to decide which one would receive a university place. Details of the recorded session are available on Moodle/Careers/June 2021.

In addition to links to general information regarding individual universities and employers, there are links to videos highlighting university degree subject courses. We would appreciate any help you can give us on advertising the talks to students – these are all pre-recorded and will be accessible all summer.
