Performances
As a department we work hard to organise exciting performance opportunities across each of the performing arts courses. These could range from full scale productions to smaller ensemble performances, as well as many examined and informal performances throughout the year.

Progression
Many of our students have gone on to study Performing Arts subjects at university, college or conservatoire and we are very proud that many are working in the industry. Our alumni regularly come back to college to lead workshops and discussions to support our current students. The department work together to create a strong sense of unity and co-operation between the arts subjects.
